

Electrical Engineer – Full-Time

-  **Location:** Llanidloes (with travel across UK & Ireland)
 -  **Job Type:** Permanent, Full-Time
 -  **Hours:** Monday–Friday, 08:00–16:30
 -  **Salary:** Competitive (based on experience)
-

About Us

Bulk Automation designs and supplies process and packaging machinery, including **robotic automation systems**, to industries across the UK. Due to continued growth, we are seeking an **experienced Electrical Engineer** to join our team.

While this role is based at our Llanidloes office, **regular travel** to customer sites across the **UK and Ireland** will be required. Flexibility and adaptability are key to success in this role.

Key Responsibilities

- Cable installation, motor and sensor termination to control panels
 - Assist with building control panels and automation systems
 - Travel to customer sites for installation and commissioning (UK & Ireland)
 - Occasional overnight stays required
-

Desired Skills & Attributes

- Minimum **3 years of relevant experience**
 - Familiarity with **Siemens PLCs** and **ABB robotics** (desirable)
 - **Full UK driving licence**
 - Excellent communication and customer service skills
 - Proactive, problem-solving mindset
 - Good time management, IT literacy, and documentation/reporting abilities
-

What's Offered

- Supportive work environment
- Competitive salary
- **24 days holiday + 8 bank holidays**
- Career development and training opportunities

- Overtime available
